

Toronto East General Hospital (TEGH) is Toronto's best-kept secret. TEGH is an urban community teaching hospital serving a residential area in southeast Toronto. TEGH is known for its friendliness and sense of community within Canada's largest city. We are embracing a goal to be the number one employer of choice for health care workers in Canada. This means investing in people to meet their professional goals and to reach their personal best while living a balanced lifestyle.

Currently we have an exciting opportunity for an individual who wants to advance their career as a  
**Nursing Practice Leader, Oncology Medicine and Clinics**

The Nursing Practice Leader advances professional practice and is responsible for developing and implementing programs and processes that enhance the patient experience by developing a culture of patient care excellence. This position provides leadership in ensuring patient and staff safety practices are maintained. The role also promotes the professional growth of nurses by providing mentorship in the use of evidence in their daily clinical decision making as well as by coaching nurses to problem solve complex clinical scenarios effectively. The Nursing Practice Leader identifies on going learning needs of patients and the broader community and facilitates the development of patient education programs with patient and staff involvement accordingly. The NPL promotes a culture of continuous improvement by facilitating practice improvements with front line staff to enhance the safety and quality of patient care using a sound knowledge of change management. The NPL also contributes by working with managers regarding the development and management of staff whose practice is below standard.

**Education:**

- Undergraduate degree in Nursing required
- Masters in Nursing or Education preferred
- Registered Nurse with current Certificate of Competence issued by the College of Nurses of Ontario
- BCLS Certificate required
- Certification in a nursing specialty an asset (CNA)
